Detailed Office Action

1. This action is in response to the application 09/731917 filed. **December 08,2000**
2. Claims 1-10 have been examined.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-10 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Gennaro et al. (USPN 5,937,066- – Date of Patent: August 10, 1999, herein referred to as “Gennaro”).
3. As to claim 1, Gennaro teaches the invention as claimed, including a method for using a protected document, comprising: receiving a document usage request for using the protected document in a session (col.13, lines 47-50, message transmits is encrypted and decrypted); authenticating the protected document (col.10, lines 51-55); authorizing usage of the protected document (col.10, lines51-55, and col.25, lines 50-60); creating a

session key for the session (col.10, lines 58-62); issuing a proxy key that delegates decryption to the session (col.10, lines 57-67, key –encrypting key allowing them to decrypt the encrypted data keys (session key)); rendering the protected document (col.14, lines 35-38); performing proxy transformation on the rendered document using the proxy key (col.16, lines 45-50); and decrypting the proxy transformed document using the session key (col.16, lines 15-20, col.10, lines 50-67).

4. As to claim 2, Gennaro teaches the invention as claimed, further comprising: retrieving terms and conditions of the session; retrieving usage parameters and system resource information for the session; and comparing the retrieved usage parameters and system resources and the retrieved terms and conditions, wherein the authorized usage is based on comparison results of the retrieved usage parameters and system resources and the retrieved terms and conditions (col.10, lines 51-67).
5. As to claim 3, Gennaro teaches the invention as claimed, wherein the retrieved terms and conditions are associated with at least one of identification of the protected document and usage type (col.14, lines 35-38).
6. As to claim 4, Gennaro teaches the invention as claimed, wherein the document usage request contains at least one of document identification, usage type, and user identification (col.30, lines 41-55).
7. As to claim 5, Gennaro teaches the invention as claimed, wherein authenticating the protected document comprises at least one of: checking a digital signature associated with the protected document; and verifying integrity of each component of the protected document (col.11, lines 30-35).

8. As to claim 6, Gennaro teaches the invention as claimed, including a usage authorization system for using a protected document, comprising: a request receiving device that receives a document usage request for using the protected document in a session (col.13, lines 47-50, message transmits is encrypted and decrypted); a document processing device that authenticates the protected document (col.10, lines 51-55); a document source that authorizes usage of the protected document, and issues a proxy key that delegates decryption to the session (col.10, lines 57-67, key –encrypting key allowing them to decrypt the encrypted data keys (session key)); an access device that, along with the document device, creates a session key for the session, wherein the document processing device renders the protected document, performs proxy transformation on the rendered document using the proxy keys, and decrypts the proxy transformed document using the session key (col.14, lines 35-38, col.16, lines 45-50, col.16, lines 15-20, col.10, lines 50-67);
9. As to claim 7, Gennaro teaches the invention as claimed, wherein the document source retrieves terms and conditions of the session, retrieves usage parameters and system resource information for the session, and compares the retrieved usage parameters and system resources and the retrieved terms and conditions, the authorized usage being based on comparison results of the retrieved usage parameters and system resources and the retrieved terms and conditions (col.10, lines 51-67).
10. As to claim 8, Gennaro teaches the invention as claimed, wherein the retrieved terms and conditions are associated with at least one of identification of the protected document and usage type (col.14, lines 35-38).

Art Unit: 2144

11. As to claim 9, Gennaro teaches the invention as claimed, wherein the document usage request contains at least one of document identification, usage type, and user identification (col.30, lines 41-55).

12. As to claim 10, Gennaro teaches the invention as claimed, wherein the document processing device authenticates the protected document by at least one of: checking a digital signature associated with the protected document; and verifying integrity of each component of the protected document (col.11, lines 30-35).

Conclusion

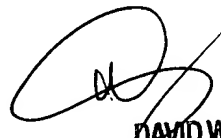

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
